CERTIFIED MARGLOBE—The finest cannery and shipping tomato introduced by the U. S. Dept. of Agriculture, from whom we obtained the seed used in growing the stock we now offer. Marglobe has a deep globe shape (see the illustration above) and a beautiful scarlet color. A very heavy yielder of fine, large tomatoes which have a small seed cavity and thick, firm meat. They ripen well up to the stem. Marglobe is almost 100% resistant to blight and nailhead rust.

CHALK'S EARLY JEWEL

This makes a fine medium early and main crop sort. Bright red fruit, ripens evenly, is solid and ships well. Holds its size well throughout the season. Our strain of Chalk's Early Jewel can be depended upon.
